ORTHOALLIANCE EXPANDS BY PARTNERING WITH JIS ORTHOPEDICS, ADDING 8 PHYSICIANS & 2 CENTRAL OHIO LOCATIONS

CINCINNATI – OrthoAlliance (OA), a Revelstoke Capital Partners portfolio company and one of the country's leading orthopaedic management services organizations, has announced a new partnership with New Albany, Ohio-based JIS Orthopedics that will add eight physicians and two central Ohio locations to OA's expanding network.

The partnership will enhance JIS Orthopedics' already successful, comprehensive approach to delivering high quality orthopedic care to more patients throughout Central Ohio.

"Throughout our 50-year history, JIS Orthopedics has gone through many changes and advancements," said JIS President Adolph Lombardi Jr., M.D. "However, we have never lost sight of who we are, our culture, and importantly our world-renowned reputation. Aligning with OrthoAlliance will advance our mission to deliver positive patient outcomes, musculoskeletal innovation, and setting the global standard for orthopedic care."

"By working together with the other partner practices within OrthoAlliance, we can continue to grow our organization to new heights," said Dr. Keith Berend, JIS orthopedic surgeon. "This new venture allows us to deliver even greater patient care and access fueled by additional resources and investments."

Based in Cincinnati, OA is a management services organization formed in partnership with Revelstoke Capital Partners, a Denver-based private equity firm. The company is building one of the country's leading orthopaedic management organizations, providing operations, marketing, and patient experience expertise and resources to partner practices working at the forefront of life-changing advances in orthopaedics and sports medicine.

In just the last couple years, OA has grown quickly to over 70 physicians and 1,100 employees.

"We are excited to welcome JIS Orthopedics to the OrthoAlliance family," said OA CEO Andy Blankemeyer. "Under this new partnership, JIS will work with other OrthoAlliance partner practices to deliver on our mission of providing instant access to high quality, low cost orthopaedic care to patients throughout the region."

Patients will experience no changes in the doctors they trust or the services they rely on from JIS. Patients will benefit from greater access to the latest surgical and medical advances as well as additional resources and investment as we move into the future."

Drs. Berend and Lombardi said the JIS leadership team went through a thorough process to ensure that the partnership will benefit the entire organization and its future growth plans.

"This decision to bring in a strong management partner has been considered with the best long-term interests of the JIS family and entire practice in mind," Dr. Berend said. "With this partnership, and OrthoAlliance's proven track record, we will be able to expand while creating new career and development opportunities for employees."

About OrthoAlliance

OrthoAlliance is a nationally leading patient-centered, physician-led management services organization that helps orthopaedic practices grow and thrive in an ever-changing healthcare landscape. Formed in partnership with Beacon Orthopaedics, a world-class center for orthopaedic care and Revelstoke Capital Partners, a Denver-based private equity firm in 2019, OrthoAlliance's partner practices feature more than 70 physicians across all orthopaedics and sports medicine specialties. OrthoAlliance strives to attract the most talented physicians and staff and deliver the highest quality care in the industry.

About JIS Orthopedics

Founded in 1972, JIS Orthopedics has been an innovative leader in orthopedics with nationally recognized physicians. With more than 150 years of collective experience, our practice specializes in total joint replacements and general orthopedics and includes two clinic locations in New Albany, Ohio, and St. Clairsville, Ohio. Our team of eight physicians and more than 80 staff members are committed to getting patients back to living a vibrant, pain-free lifestyle.
